 - i. Hello everyone. A few things first. Thank god for the last discussion only 8 people participated. Everyone needs to participate. All the complaining that happens are for you to bring to the administration not just to senate. I do not tell things that are discussed here, that is your responsible. No one took responsibility for the book sale. Make a system of who is taking over. Take charge because that is the only way that anything will get done besides complaining. You are representatives to the college not just students. People listen to Senate when they speak, but Senate does not speak well. Think about having an active voice in the direction of the college. Do not expect to see the changes, but if you do not bring it to the table at some time then it will not get done. So as a senator you need to do this for future generations

because that is what those before me have done. The card system is expensive, but the reason it has not been done is because no one has brought it to the administration. My door is open upstairs please come talk to me! I will talk to you about how to get them done but I will not do them for you.
