

January 15, 2021

Dear Heidelberg Students,

As the time approaches for students to return to campus to begin the spring semester, we want to provide instructions for those of you who did not receive your COVID-19 home test kits in the mail over winter break and those who are still awaiting test results. As you're aware, all students are required to have a negative test before returning to campus residences and moving about campus.

If you prefer to get a test at home and share your result with Heidelberg prior to your arrival, you may do so. You will need to send your results to Janelle Baldosser, director of Stoner Health and Counseling Center, at jbaldoss@heidelberg.edu, before returning to campus.

If you still need a test, Heidelberg medical personnel will be administering Rapid Antigen Testing on campus.

WICKHAM GREAT HALL, CAMPUS CENTER

11 AM - 2 PM

SUNDAY, JANUARY 17, 2021

Please make every effort to arrive for your test according to the following schedule:

- 11 AM - 12 NOON -- last names beginning with A-K
- 12 NOON - 1 PM -- last names beginning with L-Z
- 1 PM - 2 PM -- all those who cannot make their designated time above

Here are the steps you'll follow when you arrive on campus to complete your test:

1. Before going anywhere, report to the Campus Center, where our testing site will be set up in Wickham Great Hall.
2. Dean of Student Affairs Chris Abrams will greet you and walk you through a quick registration and consent [form](#) that you will need to complete. To expedite the process, you can print the [form](#), complete it and bring it with you.
3. Complete your Rapid Antigen Test.

4. You will be directed to a waiting area in the Campus Center, where one of our medical staff will be sharing your results with you privately. The wait to receive your test results is expected to be about 20 minutes.

If your test result is negative, you can proceed to your campus residence and move in.

If your test result is positive, you will have the option of quarantining on campus in designated housing or returning to your home to complete the required isolation period.

Please note that if you have tested positive since October 8, 2020, you do not need to complete a test. But please forward documentation of your test result to jbaldoss@heidelberg.edu.

If you have any questions about the Rapid Antigen Testing process, please email studentaffairs@heidelberg.edu.

We look forward to seeing you all very soon and to successfully starting the spring semester in the safest, healthiest way possible.

Sincerely,

Dr. Chris Abrams
Dean of Student Affairs

Janelle Baldosser, CNP
Director of Stoner Health & Counseling Center
