

December 28, 2020

Dear Heidelberg Students:

I hope that everyone is having a nice break. In the midst of all the holiday food, Netflix shows and family zooms (which sums up our home), I encourage you to read something for fun and also something that challenges you. Entertainment and learning.

Although the COVID impact of the current holidays has not hit the Ohio healthcare system yet, we can be encouraged that the state's 7-day running positivity rate has declined again to 12.9%. Getting better but still not good.

Our required and free Heidelberg Return-to-Campus COVID-19 Home Test Kits have been sent to the first wave of returning students. Follow the self-administered directions and due dates carefully. As Dean of Student Affairs Chris Abrams has said previously, your proof of negative test is your admission ticket back onto campus in January.

Please stay healthy on New Year's night and day!

Respectfully,

Rob Huntington  
President
