

December 29, 2020

Dear Heidelberg Students and Parents,

Today, I want to provide you with specific information to register your COVID-19 home test, which is required for your return to campus in January. Registering your information is the first and most important step in completing the testing process prior to your return.

When you receive your test kit, click into <http://heidelberg.telomerediagnostics.com>, and follow these step-by-step instructions to register:

- 1) Fill out Page 1, including your email address (even though it says optional).
- 2) Click to page 2.
- 3) Do not fill out any of Page 2.**
- 4) Click to Page 3 and review your information.
- 5) Click to page 4.
- 6) You will receive a 6-digit code on your cell phone and email.
- 7) Enter the 6-digit code.
- 8) Go to the next page and enter the Swab code. This is the code that appears on your specimen tube from your test kit. Submit.
- 9) You should be registered and see a confirmation on the page.

We are aware that some of you have not yet received your test kit. There is still plenty of time before your testing deadline. Please note that the day you take your test -- according to the deadlines listed below -- is the day that you should return your specimen via the FedEx mailing box provided with your test kit.

- Indoor Track – January 4, 2021
- All students except Resident Assistants – January 5, 2021
- Resident Assistants – January 7, 2021

If you have any questions or issues with this registration process, please email [studentaffairs@heidelberg.edu](mailto:studentaffairs@heidelberg.edu).

Sincerely,

Dr. Chris Abrams  
Dean of Student Affairs
