

April 5, 2021

Hello from the *Destination: Heidelberg Orientation* team! Have you started your New Student Checklist?

Checklist 1, through your OASIS student account, has the following important items that must be completed before you attend Orientation this summer. If you don't complete the academic pieces, you will not receive a Fall class schedule at Orientation.

Math Placement

The ALEKS Placement Assessment determines which math class you are best suited to take. Students must complete the assessment at least two weeks prior to their orientation date. The ALEKS Placement Assessment covers Basic Math through Pre-calculus and averages 90 minutes to complete. Questions may be answered using the Math Placement FAQ or you can contact the Owen Center at owen-center@heidelberg.edu.

Pre-Orientation Academic Advising Appointment

Complete this brief survey to have an appointment arranged with an Academic Advisor to determine classes for Fall Semester. NOTE: To receive your Fall Schedule at Orientation, you must meet with an advisor. For questions, contact the Owen Center at 419.448.2301 or owen-center@heidelberg.edu.

Public Speaking Assessment

The public speaking assessment will help advisors assess your comfort level with communication. For questions, contact Dr. Heaton at rheaton@heidelberg.edu.

Register for Orientation!

Orientation is the place for incoming students to build relationships and gain the resources necessary for a successful transition to university life. Be prepared to pick your Orientation day to complete the form. Questions about Orientation can be directed to orientation@heidelberg.edu.

We can't wait to see you this summer at Orientation!

Brady Gibson
Assistant Director of Admission
