What are the most significant barriers or challenges your program is currently facing (e.g., enrollment, faculty resources, student support, accreditation requirements)?

Responses will not be used to evaluate or penalize program.

The information collected is for the purpose of informing broader understanding, identifying trends, and guiding future policy.

The political climate makes our work difficult, and the state and federal legislation causes a lot of anxiety- the current declassification of counselors as professionals and impacting the financial aid. We are a small program, and we feel the impact. We can always use more support for enrollment but we have great leadership who have made large impacts with our resourcing.

What successes or available resources have contributed most to your program's growth, effectiveness, or ability to support students?

Responses will not be used to evaluate or penalize program.

The information collected is for the purpose of informing broader understanding, identifying trends, and guiding future policy.

Two major factors that have impacted us locally- we have a very strong provost who advocates for us and ensuring we have a strong balance of workload and recognizing the role of CACREP liaison and importance of accreditation. The other success we have had is securing external grants for our students which allow for them to have paid internships. This funding has been so very helpful

What is CACREP doing well for your program that you appreciate?

The AMS system is a great tool and pieces continuing to be added to it- big win, huge win.

What would you like to see CACREP do differently in its current services?

The update session at ACES could have used a bigger space- but that wasn't on you.

What services or resources would you like to see CACREP add or develop that would better serve you and your program?

The videos and tutorials have been really helpful as well! Keep those up!

Please provide a name **and contact email address** of the person completing this survey. This address will be used if the CACREP office has any questions about the information provided in this survey.
