November 17, 2020

Dear Heidelberg Students,

If you would like some peace of mind before you depart campus this weekend and return to your home and family, the Stoner Health and Counseling Center is offering one final opportunity to have a COVID-19 test on campus. The health center has a limited supply of the Rapid Antigen Test (RAT) called BinaxNOW that is available to students on a first-come, first-served basis this Thursday, November 19, from 9 a.m.-11 a.m.

The BinaxNOW test is a very quick and easy diagnostic test. It does not require any instrumentation or invasive procedures. Instead, it determines a COVID-10 negative or positive result using a test card. Results are ready in about 15 minutes.

If you would like to take the BinaxNOW test, **you are required to call the Stoner Health and Counseling Center at 419-448-2041 to schedule an appointment**. The center will administer the test until its supply of the test cards is gone.

Please note that if you have tested positive any time in the past three months, it is not recommended that you have another COVID-19 test at this time.

Best wishes for a successful conclusion to the semester and a safe, healthy holiday break. I look forward to seeing everyone back on campus in January.

Sincerely,

Janelle Baldosser, CNP
Director of Stoner Health & Counseling Center
