

December 8, 2020

Dear Heidelberg Students,

In this final week of classes for the Fall Semester, I hope the final week of classes for the Fall Semester is going great and that everyone is finishing strong, heading into finals next week. Here on campus, while you are at home, we are already gearing up for your return to campus for the Spring Semester.

In President Huntington's weekly message on Nov. 30 and yesterday, he announced that all students will be required to confirm a negative COVID-19 test right before you return to campus. This test is part of Heidelberg's ongoing commitment to health and safety for our entire campus.

Heidelberg will mail a test kit to your home address. This test is a simple saliva-based test, which you'll complete and return based on a date which we will provide to you. You should receive your results in 24-48 hours. The test will be at no cost to you.

A "negative" test will be your ticket to return to campus, so it's important that you watch for the arrival of your test kit and complete the test according to the specific instructions that will be provided to you. You will need to have your results in hand **within four days of your return to campus**.

The first step in this process is to ensure that your mailing address is correct in OASIS. Please follow these steps to verify, and if necessary, change the mailing address where we should mail your test kit:

1. Log in to your [OASIS](#) account.
2. Click the "Personal Information" tab at the top of the page.
3. Click "Change Addresses and Phones."
4. Fill in your current address. (If your new address is a temporary change, please note that in the comment/note section).

If your address is correct in OASIS, you don't need to do anything. The deadline to update your address is **Friday, December 11, 2020**. If you need assistance or have questions, please email student-affairs@heidelberg.edu.

We will provide additional instructions in the coming weeks, so be sure to keep an eye on your Berg email. Best wishes as you conclude this semester.

Sincerely,

Dr. Chris Abrams
Dean of Student Affairs

Janelle Baldosser, CNP
Director of Stoner Health & Counseling Center
